

IN ADMIRATION OF MUSIC

LEKTOR 8

The three-way DALI LEKTOR 8 with dual 8" bass drivers and 5" midrange leads off the LEKTOR Series in fine style. The proprietary ultra low loss cone drivers employ coated paper with wood fiber reinforcement. This unique compound, originally developed for our legendary top of the line EUPHONIA Series, ensures lightning-fast response, transforming the tiniest electrical signal into subtle musical detail.

LEKTOR 8 is a bass reflex design with independent front and rear flared reflex ports to significantly reduce port turbulence for improved bottom end clarity. Because the bass reflex system is optimized for phase aligned response, the integrity of the musical signal is maintained for increased coherence and natural sound.

The 28 mm soft dome tweeter is specially developed for the LEKTOR Series with high power handling and an acoustic lens to ensure ideal off-axis response with wide dispersion and consistently smooth sound across a large listening area.

Let DALI LEKTOR 8 bring convincing attack, enhanced dynamics and ample headroom to your music and movie experience.

SPECIFICATIONS

Frequency range (+/- 3dB) [Hz]:	38,5 - 27.000,0
Sensitivity (2,83 V/1 m) [dB]:	89,5
Nominal impedance [ohms]:	6
Maximum SPL [dB]:	112,0
Recommended amplifier power [W]:	40,0 - 180,0
Crossover frequencies:	600 / 3.500
High frequency driver:	Soft textile dome
Midrange frequency driver:	Wood fibre cone
Enclosure type:	Bass reflex
Bass reflex tuning frequency [Hz]:	36,0
Connection input(s):	Single wire
Recommended placement:	Floor
Loudspeaker type:	Front
Magnetic shielding:	Semi magnetic shielded
Max loudspeaker dimensions incl. base and grille	1059 X 251 X 370
Loudspeaker weight including base and grille [kg]:	24,2
